

MAKER
KYOTO — AMSTERDAM
KAMER

Maker:
Nakajima Zogan

Since: 1947
Specialty: Inlay (zogan)

Zogan is a decorating technique to lay coloured metal pieces into a wide range of metal material. Inlay craft, originated in Middle East called damascene, was introduced to Japan in the 7th century through the Silk Road. This technique was initially applied for weapons and utensils for religious ceremonies in Japan, eventually for art objects in Meiji period (1868-1912) and became popular in Paris as Japonisme art. NAKAJIMA ZOGAN feels a strong responsibility to pass on the ancient technique to the next generation and continue to create new inlay works that reflect contemporary tastes.

Exhibited products: Scissors and knives for ikebana (flower arrangement), Biru bottle opener (collaboration with BCXSY)

Stock No. NZ_0001
商品名 ピアス1(ハート)
