KYOTO — AMSTERDAM
KAMER

Maker:
Yamazaki Orimono

Since: 1916
Specialty: Textile

YAMAZAKI ORIMONO produces Nishijin Kinran, one of the finest and thinnest fabrics used for kakejiku (hanging scroll) and makimono (scrolled book). Their production system is what makes Yamazaki Orimono quite unique. They can flexibly cope with a large variety of textiles in terms of techniques (from traditional to modern), materials (from silk to synthetic fibers), patterns (from plain to luxurious) and functions (from fashion to interior). Exhibited are their latest works: umbrellas and raincoats with glimmering textile incorporated in order to be more visible and safer in dark rainy days.

Exhibited products: Umbrellas, raincoats
